WORK EXPERIENCE

Junior Software Developer (09.2025–11.2025) IT Studio Rech GmbH, Würzburg

Developed and implemented software functionalities with a focus on application logic, backend service integration, and workflow automation. Collaborated closely with the technical team and clients to clarify requirements, perform testing, and deliver stable solutions.

Junior Web Developer (09.2022 –07.2025) Pagemachine AG, Frankfurt

Practical full-time activity within a digital agency, combined with formal professional training. Worked on real client projects involving the development and maintenance of web applications and corporate websites. Collaborated in agile teams and participated in complete software delivery processes, from implementation to testing and deployment.

EDUCATIONAL HISTORY

Professional Training (Ausbildung) (2022— 2025) Werner-von-Siemens-Schule, Frankfurt am Main

Practice-oriented training focused on software development, programming (Python, C++, JavaScript), web technologies (HTML, CSS), and databases (SQL, NoSQL). Combination of theoretical education and hands-on work within an IT company.

High School Diploma (2010— 2014) Iuliu-Maniu Technical College, Bucharest
